

366CE Wireless Thin Client

Easily Deployed, Centrally Managed, Secure

Overview

The BOSStablet delivers the very best in mobile computing. Healthcare, manufacturing, distribution, retail, you name the industry. The BOSStablet is a perfect match for applications such as patient care, inventory management, shop floor, shipping, receiving, and data collection. The integration of powerful elements -- AMD GX533 processor, Microsoft's CE.Net operating system, versatile networking options, together with Citrix ICA and Microsoft RDP client/server computing protocols makes the BOSStablet a compelling solution for mobile computing.

Advantages

The BOSaNOVA 366CE Wireless Tablet . . .

- is configurable to operate as an information appliance capable of executing local and browser-based applications, leveraging industry standard plug-ins support and embedded applications compatibility for superior web-based, network, and off-line experience
- is configurable to operate as a Thin Client or terminal in conjunction with servers and hosts through the embedded terminal emulation and client-server ICA and RDP protocols, complementing local, embedded applications
- offers mobile access to a wealth of applications and data on primary PC system (CE.Net) using Microsoft Remote Desktop Connection feature
- features industry-standard means for set-up in properties and communications. The device includes client software for accessing or receiving remote, server-based, software installation and updates
- offers peripheral support, local data and applications access, and optional storage through a CompactFlash™ card slot and USB port
- features "instant on" mode and hot-swappable, battery expansion support for an enhanced practical experience
- has standard and optional accessories for enhanced handling and ruggedization. The device may be secured in a VESA-compliant cradle for wall- and vehicle-mounts with network and selected peripherals connectivity options
- integrates a bright 8.4" T F T-LCD touch display that offers an optimal 800x600 (SVGA) resolution and is central to an attractive, robust and ergonomically impressive 1.9 pound (0.86 kg) package

Highlights

- Windows CE.NET and IE for Windows CE with ICA & RDP Terminal clients; Terminal Emulation software
- Windows Media Player, Java Virtual Machine™, Acrobat® PDF and Microsoft Office Suite Viewers
- Brilliant 8.4" TFT Active Matrix LCD at 800x600 SVGA resolution
- Integrated touch screen display with "on screen" soft keyboard support; Display rotation
- External CompactFlash™ and PC Card slots and a USB port
- Full 16-bit audio with stereo, including headphone jack, built-in stereo speakers and microphone
- Cradle for charging and USB connections
- Programmable 4-way navigation button and multiple hard buttons
- Quiet and reliable fan-less operation with no moving parts
- Protective Jacket for enhanced handling and ruggedness
- Hot-swappable, secondary battery pack for extended usage
- Optional, mountable cradle for wall, desktop and vehicle deployments

366CE Wireless Thin Client

Easily Deployed, Centrally Managed, Secure
