

XTC-1300 Thin Client

Deliver Windows® applications simply, securely, and cost-effectively throughout your organization with the XTC-1300 Thin Client. Powered by a 1.5GHz VIA processor and featuring the state-of-the-art Windows XP-embedded operating system, the XTC-1300 offers the most advanced XP deployment available.

The XTC-1300 includes a full array of embedded programs, such as the full-featured Microsoft Internet Explorer 6.2 (version 7 available upon request), Office Viewers, Shockwave Version 11.5, Flash Player and Adobe Acrobat Reader Version 7 (** 8 & 9 available upon request). The XTC-1300 also boasts the fastest graphics processor of any thin client in the world today.

The XTC-1300 is available with an 802.11 b/g/n internal wireless option. The built-in PCI and PCMCIA expansion slots can provide capability for fax cards, videocards, and wireless network adapters, etc.

Advantages

- Windows XP operating system with 1.5 GHz VIA processor and up to 1 GB RAM for top performance and customized application support.
- PCI compliant embedded TN5250e based terminal emulation software for connection to IBM iSeries (AS/400) including secure display, printing and FTP with SQL-based data transfer
- Connections to Windows Terminal Servers and Citrix servers using Remote Desktop Protocol (RDP), Independent Computing Architecture (ICA), or Citrix Access Client.
- Quad monitor support option
- Optional Internal 802.11 b/g/n wireless WEP WPA, WPA2 and Cisco compliant LEAP and PEAP support.
- PCI and PCMCIA expansion slots standard
- Keyboard support for full-featured 104-key or 122-key driverless PC keyboards, enabling efficient work with host applications, as well as mouse port for connection versatility
- Embedded full- featured Internet Explorer 6 SP2 (** 7 available upon request) browser supports Sun Java, Microsoft Java, Shockwave and Flash Player
- Centralized configuration, management and security via the 10ZiG Remote Manager for low Total Cost of Ownership (TCO)

Intelligence of a PC with the security and TCO of a Thin Client

Unlike most Thin Clients that contain only compact versions of their browsers, the XTC-1300 delivers the full version of the IE browser. With its embedded applications, such as Outlook Express, Adobe Acrobat Reader, and JVM, the end user will not be able to distinguish between the deliverability of the XTC-1300 and a full PC. The XTC-1300 delivers all of this functionality while still providing the security and ease of maintenance of 10ZiG's award-winning Thin Clients.

Enterprise Class Remote Administration

The 10ZiG Remote Manager, an integral part of the XTC-1300, enables quick and easy installation, upgrade, and user/group configuration.

Some of the features include:

- 5250 emulations can be centrally defined and pushed down to the thin client.
- Devices can be subdivided into groups based on IP ranges for easier management of large installations.
- Ability to remote enable or disable write protection, as well as committing cached changes to disk when write protection is enabled.
- Capable of cloning post deployment software installation and settings, pushing out only the additional files, not a new complete image.

XTC-1300 Thin Client

System

Operating System Xpe SP2 (Standard Embedded 2009 available upon request)

Form Factor Compact stand-alone metal case

Management 10ZiG Management Software

Processor VIA 1.5 GHz

Browser IE 6 SP2 (** 7 available upon request)

Max Video Res. Up to 1280 X 1024 (Supports Wide Screen)

Memory

RAM (Stand/MAX) 512MB/1GB

Storage (Stand/MAX) 512MB/8GB

Software Configuration

Host Access TN5250e, TN370e, SSL, IBM 3151, VT100 and (BlueZone Desktop) VT200, SCOANSI and others*

ICA Version 11

RDP 6.1

Client Software Adobe PDF Viewer 7 (**8 or 9 available upon request)

MS Office Viewers 2003 (2007 available upon request)

Microsoft Outlook Express

Windows Media Player 11

VNC Shadowing

Sun JVM 1.42 (*1.6 available on request) & MS Java

Shockwave 11.5

Flash Player 10

Quest vWorkspace V6.1, Leostream, XenDesktop, Ericom PowerTerm WebConnect, VMware VDI optional

Dimensions

Device 2"W x 11.5"H x 8.2"D
5cm x 29.2cm x 20.8cm

Weight 8.4 lbs. (3.8kg)
