Tech & Firmware Notification

NOS™ - 64 - 16.1.26

April 14, 2021

General NOS-64 16.1.26 Release Notes

Client Versions

VMware Horizon Client 2012, Cisco Webex 41.2.0, Zoom Plugin 5.5.0

Citrix Workspace App 2103, Cisco Webex 41.2.0, Skype for Business RTME 2.9.300, Zoom Plugin 5.5.0

FreeRDP 2.0.0.19, WVD Client (WVD 1.0 / Desktop RDP 2.0)

Feature Requests

Updated Ubuntu library packages (housekeeping).

Upgraded Linux kernel to v5.4.

Feature Fixes

Units intermittently showing Ubuntu18 as the hostname at boot.

9948x will not extend dual displays, only mirrors with firmware 16.1.24.2 or higher.

Does not remove addons after firmware upgrade.

HDMI 1 works but HDMI 2 does not.

Screen Flicker on top horizontal line of display on 6048q primary display.

DNS forward and reverse lookups not working, due to name registration error in startup process.

Cannot print test page to local USB printer.

Some existing units in the field are unable to update due to disk space issues.

Network initialization delayed for 2 mins if set to static IP.

Citrix NOS-64 C 16.1.26 Release Notes

Citrix Workspace App 2103, Cisco Webex 41.2.0, Skype for Business RTME 2.9.300, Zoom Plugin 5.5.0

Feature Requests

Upgraded Citrix client to 2103 (21.3.0.38).

Upgraded Zoom plugin to version 5.5.0.

Added Cisco WebEx support.

Added config option to force Teams webcam encoder size.

Continued...

Support Zoom and Skype for Business simultaneous operation.

Preferred conferencing option no longer applicable and removed due to increased virtual channel support in CWA2103.

Upgraded Skype for Business RTME (Realtime Media Engine) to version 2.9.300.

Feature Fixes

Imprivata - Citrix WebApi connector does not handle cancelling operation (Watch cursor and cleanups).
