

10ZiG NOS™ Series Zero Clients for VMware

The 10ZiG NOS™ Series Zero Clients are built and optimized specifically for VMware® Horizon. The NOS™ Series devices are designed to provide a high quality user experience across virtualized desktops and published applications tailored to the Horizon platform and the Blast Extreme, PCoIP and RDP protocols. The NOS™ Series Client lineup provides a choice of hardware options fit for task-workers through the most demanding power-users and offers support for features such as SSL, Smart Card, SSO, RTAV, Skype for Business and more. The NOS™ Series Zero Clients for VMware are also Imprivata® Certified.

4448v Value Class

- Intel 1.33 GHz Dual Core processor
- 1 x DVI-D + 1 x DVI-I
- Optional Wireless and VESA Mounting
- Ideal device for task users providing high performance multimedia acceleration

4548v 4K Value & Security Class

- Intel 1.6 GHz Dual Core processor (with 2.48 GHz Burst Technology)
- 1 x HDMI + 1 x DisplayPort for dual monitors, both at 4K/UHD 30Hz or 2560x1600 60Hz
- Optional Fiber support (SFP Ready), Wireless and VESA & ARM Mount
- Ideal device for users requiring the absolute highest levels of security

5848qv Performance Class

- Intel 2.0 GHz Quad Core processor (with 2.42 GHz Burst Technology)
- Choice of dual DVI or dual DisplayPorts
- Optional Wireless and VESA Mounting
- Ideal device for users requiring support for graphic intensive apps including 3D graphics/ CAD/Full HD Multimedia and content rich browsing including HTML5/Flash based content

5948qv 4K Power Class

- Intel 1.60 GHz Quad Core processor N Series N3710 (with 2.56 GHz Burst Technology)
- 1 x HDMI + 2 x DisplayPorts for three monitors all at 4K/UHD 30Hz or 2560x1600 60Hz
- Optional PoE, Wireless, and VESA & ARM Mount
- Touch Technology capabilities with rotating base
- Ideal choice for power users requiring support for three simultaneous displays
