

10ZiG RepurpOS™

Secure. Managed. Flexible.

No-Hassle 10ZiG RepurpOS™ with Free Management

Convert PCs, Laptops & Third-Party Thin Clients Into Secure, Managed Endpoints

Unlock the potential of your existing hardware with RepurpOS™, 10ZiG's Thin Client OS transformative solution designed for the modern VDI, DaaS, and Cloud era. 10ZiG RepurpOS™ is a no-hassle repurposing software solution that breathes new life into nearly any device, from old PCs to laptops, and even third-party Thin Clients. 10ZiG RepurpOS™ equips and extends existing hardware with a purpose-built operating system optimized for VDI, DaaS, and Cloud environments.

Key 10ZiG RepurpOS™ Beneficial Outcomes

Cost Savings

- Reduce your immediate spend on new hardware solutions
- Minimize overhead cost

Optimize Your Hardware

- Extend the life of your existing hardware
- Operate with a purpose-built Linux Thin Client OS

Security Enhancements

- Strengthen your network's security setup
- Create a controlled, zero-trust-based working environment

Centralized Management

- Deploy and update from one management tool
- Eliminate the hassle of outdated plugins and vulnerabilities

Flexible Deployment

- USB Live Boot on devices for flexible OS switching as well as hybrid or remote working
- Run as a virtual machine on platforms like Omnissa Workstation
- Install locally and run from local storage

The 10ZiG Repurposing Difference

- Software is no hassle!
- Devices can be managed over the internet which does not require additional access gateways or licenses
- Easily run software live from any USB stick, install in minutes, and configure without hassle
- One-stop vendor for both software and hardware for when you're ready to buy

Reasons to use 10ZiG RepurpOS™ Software

10ZiG RepurpOS™ is a game changer. It can be easily installed in minutes and configures endpoints like a breeze. Here are some of the main reasons IT Admins find it so transforming.

Standardized UX

- Delivering a standardized UX to your organization with DaaS, SaaS, VDI, Web Apps, and the FREE 10ZiG Cloud Ready Management.

Consolidate Your OS

- Consolidating your OS with the endpoint estate by offsetting hardware costs where “X” amount of assets still have life/warranty left, and replacing those that don’t with 10ZiG hardware.

Reducing Waste & Costs

- Access to our Thin Client OS repurposing software is FREE and reduces e-waste, lowers your carbon footprint, reduces hardware costs by giving life to existing hardware without needing to immediately purchase new.

10ZiG RepurpOS™ provides value beyond products with FREE centralized management, a 3-Year Advance warranty, and dedicated local support ensuring timely assistance and personalized service.
