

10ZiG®

10ZiG RepurpOS™

Secure. Managed. Flexible.

No-Hassle 10ZiG RepurpOS™ with Free Management

Convert PCs, Laptops & Third-Party Thin Clients Into Secure, Managed Endpoints

Unlock the potential of your existing hardware with RepurpOS™, 10ZiG's Thin Client OS transformative solution designed for the modern VDI, DaaS, and Cloud era. 10ZiG RepurpOS™ is a no-hassle repurposing software solution that breathes new life into nearly any device, from old PCs to laptops, and even third-party Thin Clients. 10ZiG RepurpOS™ equips and extends existing hardware with a purpose-built operating system optimized for VDI, DaaS, and Cloud environments.

Key 10ZiG RepurpOS™ Beneficial Outcomes

Cost Savings

- Reduce your immediate spend on new hardware solutions
- Minimize overhead cost

Optimize Your Hardware

- Extend the life of your existing hardware
- Operate with a purpose-built Linux Thin Client OS

Security Enhancements

- Strengthen your network's security setup
- Create a controlled, zero-trust-based working environment

Centralized Management

- Deploy and update from one management tool
- Eliminate the hassle of outdated plugins and vulnerabilities

Flexible Deployment

- USB Live Boot on devices for flexible OS switching as well as hybrid or remote working
- Run as a virtual machine on platforms like Omnisia Workstation
- Install locally and run from local storage

The 10ZiG Repurposing Difference

- Software is no hassle!
- Devices can be managed over the internet which does not require additional access gateways or licenses
- Easily run software live from any USB stick, install in minutes, and configure without hassle
- One-stop vendor for both software and hardware for when you're ready to buy

Amazon Workspaces | Apporto | Azure Virtual Desktop | Citrix | ControlUp | Dizzion Frame | FabulaTech | Inuvika | Imprivata | Leostream | Liquidware | Microsoft (AVD / RDS / W365) | Nerdio | Nutanix | Omnisia | Parallels | 90Meter

Reasons to use 10ZiG RepurpOS™ Software

10ZiG RepurpOS™ is a game changer. It can be easily installed in minutes and configures endpoints like a breeze. Here are some of the main reasons IT Admins find it so transforming.

Standardized UX

Consolidate Your OS

Reducing Waste & Costs

- Delivering a standardized UX to your organization with DaaS, SaaS, VDI, Web Apps, and the FREE 10ZiG Cloud Ready Management.
- Consolidating your OS with the endpoint estate by offsetting hardware costs where “X” amount of assets still have life/warranty left, and replacing those that don’t with 10ZiG hardware.
- Access to our Thin Client OS repurposing software is FREE and reduces e-waste, lowers your carbon footprint, reduces hardware costs by giving life to existing hardware without needing to immediately purchase new.

REPURP CONVERT

10ZiG’s Zero Touch Automation of Existing OS Migration to 10ZiG RepurpOS

Convert to RepurpOS with RepurpConvert!

Existing OS Migration Automation

Hands-Off Remote Process

Ideal for Windows 10 Migrations

RepurpConvert is 10ZiG RepurpOS’s zero touch solution for automating existing OS migration to RepurpOS remotely, efficiently, and easily via existing remote management tools, regardless of location. Designed to reduce or eliminate direct manual labor and associated costs related to migrating any existing OS hands-on, such as Windows 10 to 10ZiG RepurpOS, the RepurpConvert solution can be deployed remotely through RMM tools such as Microsoft Intune/SCCM and other equivalent 3rd party tools, to automate the process involved in migrating from any OS to 10ZiG RepurpOS. RepurpConvert, future-proofed was also modernized to be adapted to convert not just other Windows-based operating systems, but also third-party Linux operating systems in the future. Drastically saving organizations money in both migration expenses and licensing costs, the RepurpConvert & RepurpOS integrated solution is yet another Single-Vendor Solution from 10ZiG.
